YELLOW CLAIREFONTAINE NOTEBOOK

Lichtenberg, where clean silence reminds me
Praha or some Utopia.

Where beauty train »Dolphine« (VT 18.16) is parked
and steady while in Air flow Döner smell.
Yellow Tree Leaves.

In morning odour of coffee and cigarettes.

Where Millionaire Yuppies took the best river side
spots. And politicians in black shiny cars and with
bodyguards coming to visit them.

Non of those belong to here.

Meanwhile people drink coffee, they brought in
jam jars and I have one as well.

I am reading again about Stalin era architecture.

Atmosphere is relaxed inside stress concept.

Former East looks like Former West and Former
West Looks Like Former East.

Next week will be cold and rainy.

Berlin 2018

Meine Aktivitäten in den Lichtenberg Studios waren selbst publizierten Büchern, elektronischen Experimenten und Konstruktionen zum Thema Error, Hair-Internet, zufälligen Laser-Zeichnungen, Videos über Arbeit und rennenden Himmel, Reißverschlussstaschen, der Theorie von Vladimir Paperny, die in Culture "Two" und Liu Cixins Novelle „The Three-Body Problem“ beschrieben wird, dem Geruch von Lichtenberg und der Erkundung von Koffein-Gewohnheiten, Stahlgravierung, dem thermischen Verlag und Live-Drucken, starkem türkischen Tee, Hühnchen + Fisch, Slow Motion gewidmet. Diese Themen wurden an einem komponierten Abend präsentiert:

Baikonur ~ Berlin. „Baikonur wird für einen Abend von Lichtenberg aus operiert“.

In Form eines Open Studio-Abends zog ich eine Parallele zum Kosmodrom-Zentrum.

Jeder Besucher bekam eine Publikation, die meine Arbeit in Lichtenberg zusammenfasst, und eine Reißverschlussstasche, gestaltet um einen Friday Night Cosmos-Space Walk in Berlin zu über- und zu erleben.

Weltraumfahrer-Gäste des Abends waren

Trojan Tactics (TT)

DJ Aje

VJ Gundemaro.
